The Trick acoustic panel collection features a captivating pattern that plays with optical illusion, changing based on the angle from which you view it.

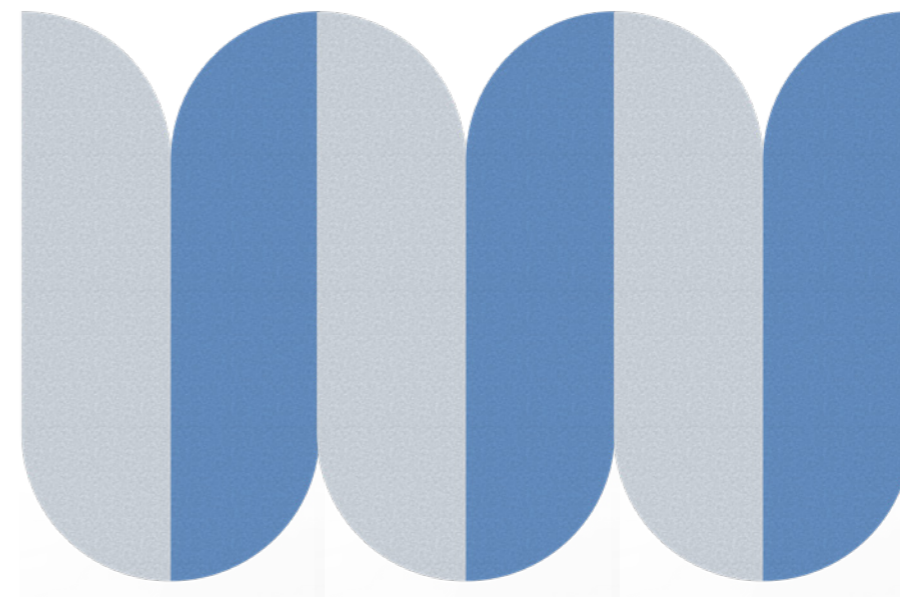

TREE

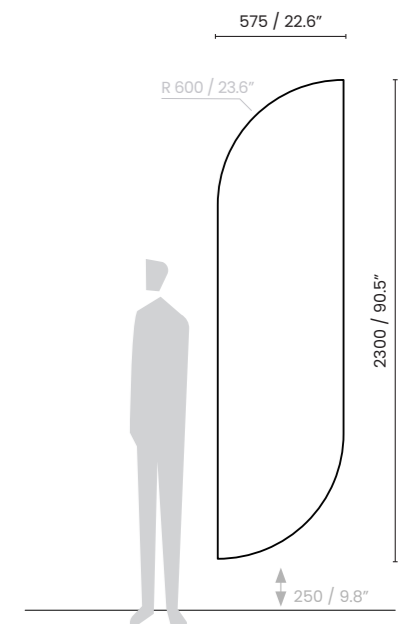

The Tree acoustic wall panel is a minimalist and playful reinterpretation of the varying heights of tree canopies.

FEATHER

Feather is a minimalist acoustic solution that enhances the acoustic performance of a room. Its design allows for various compositional possibilities through rotation and mirroring of the pattern.

ENGRAVED WALL PANELS

Available in a range of designs and styles, each panel from this collection allows for limitless compositions, enhancing the visual appeal of any space where they are displayed.

The Engraved Wall Panel Collection, made out of PET-Felt, deliver exceptional sound absorption for enhanced acoustics.

Features and benefits

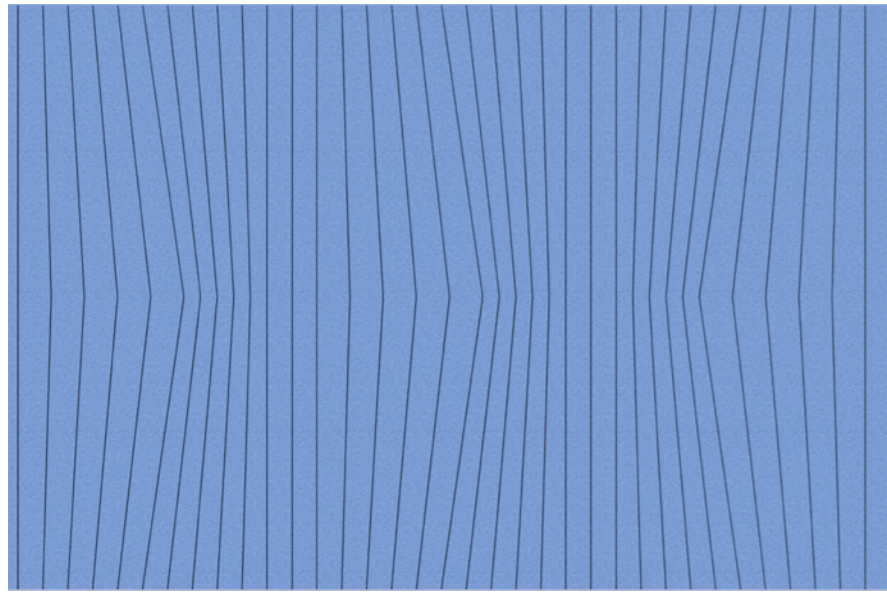

- All panels are made from PET-Felt, known for its excellent acoustic properties.
- The engraved panels provide an easy installation process.
- The collection features a wide range of designs that create seamless compositions.

Applications

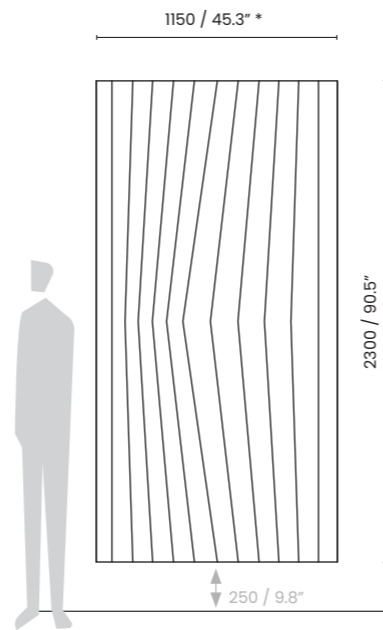

- Due to the wide variety of designs, the engraved panels are well-suited for any interior.

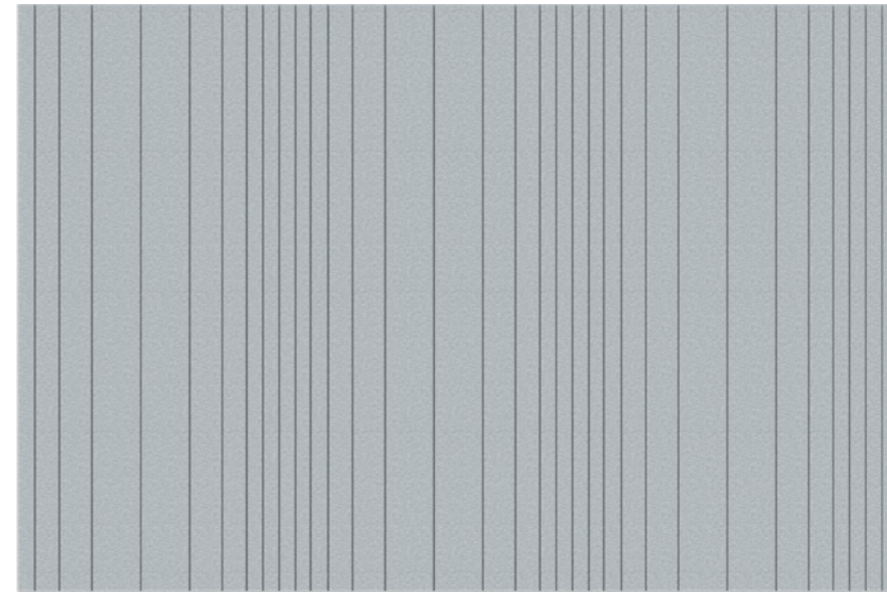

ARC

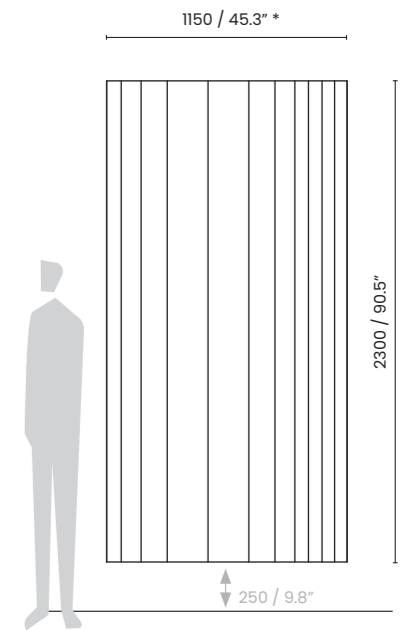

The Arc acoustic wall panel boasts a design that creates an optical illusion through the orientation of its lines, giving the impression depth.

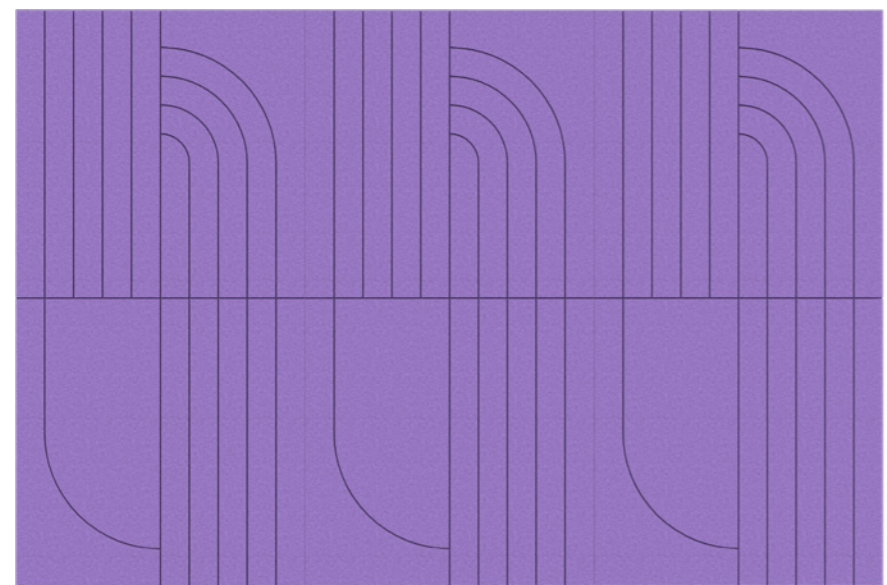

TEMPO

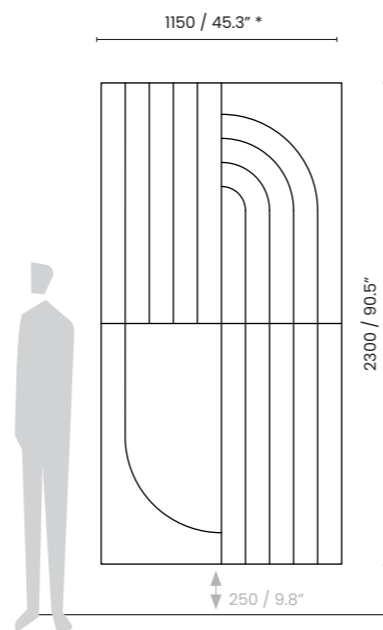

The engraved line progression of the Tempo acoustic panel brings a calming rhythm and a refined aesthetic to the space.

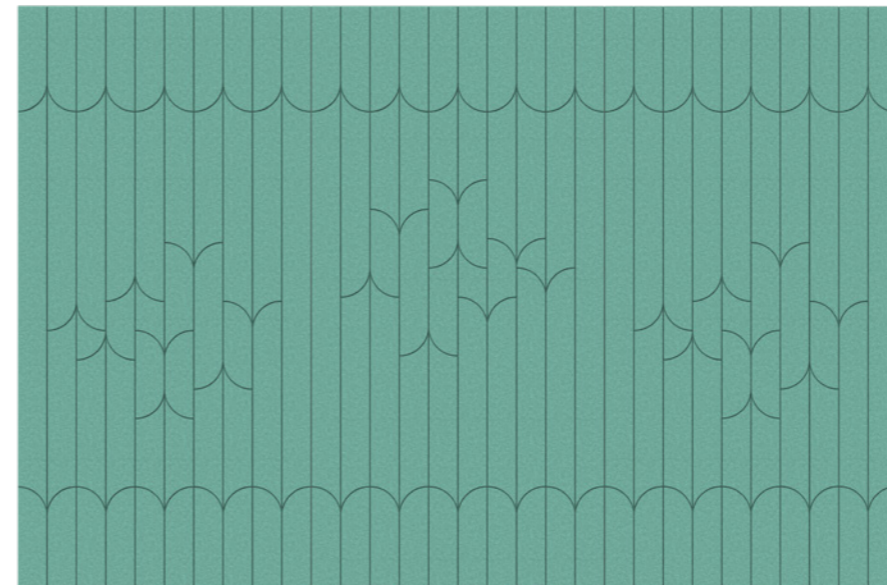

RAINBOW

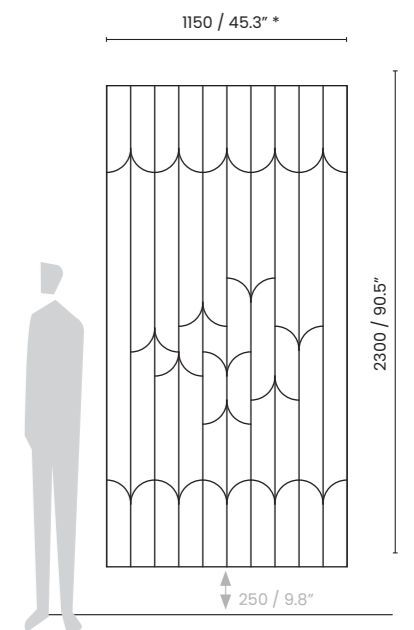

The design of the Rainbow panel is defined by the alternation between straight and curved lines, giving it a gentle and cheerful character.

TRIP

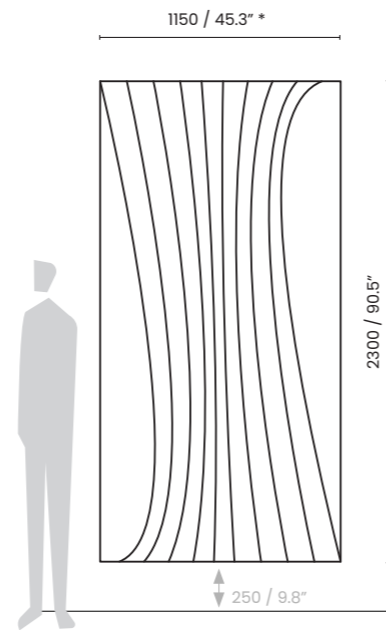

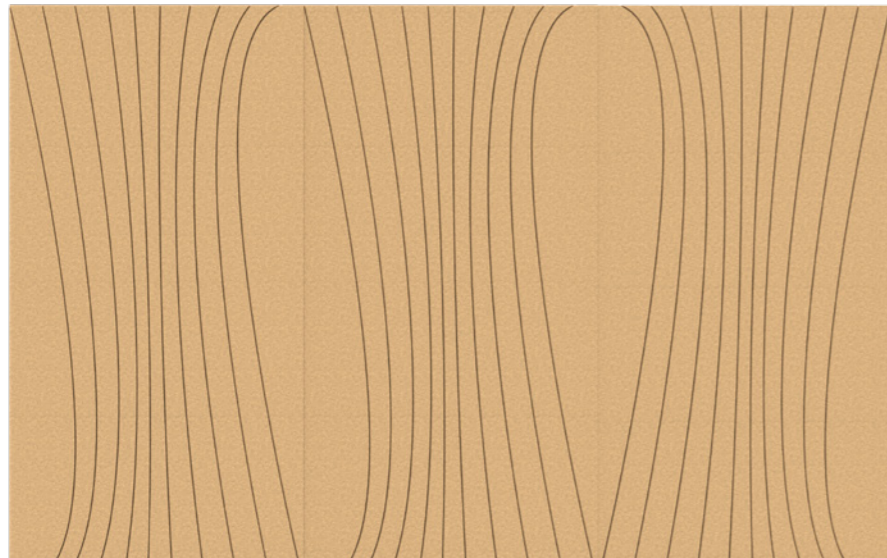

The Trip panel's lively look adds a touch of personality while enhancing the room's acoustics, making it both a stylish and functional choice for your decor.

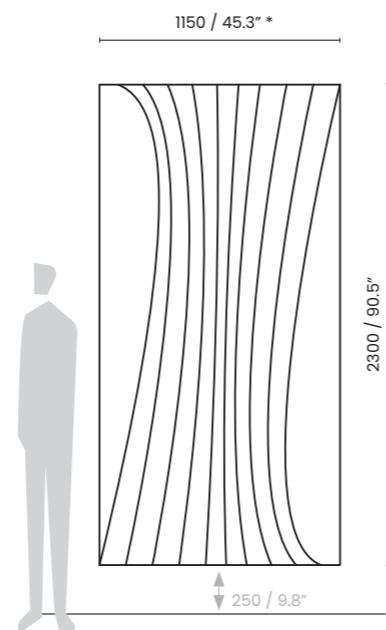

FIELD 1

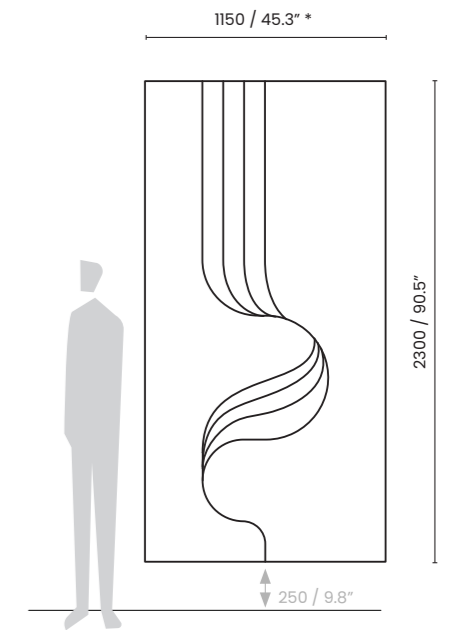

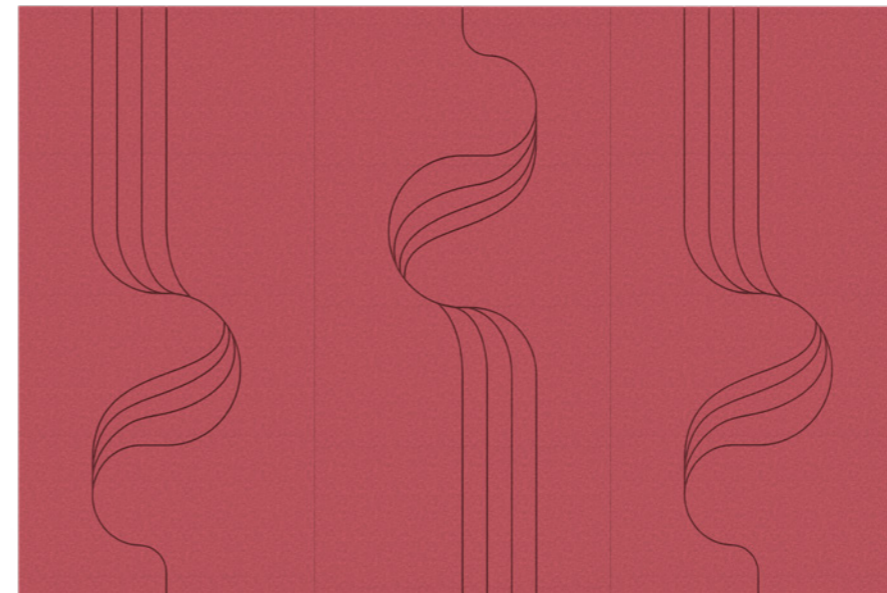

FIELD 2

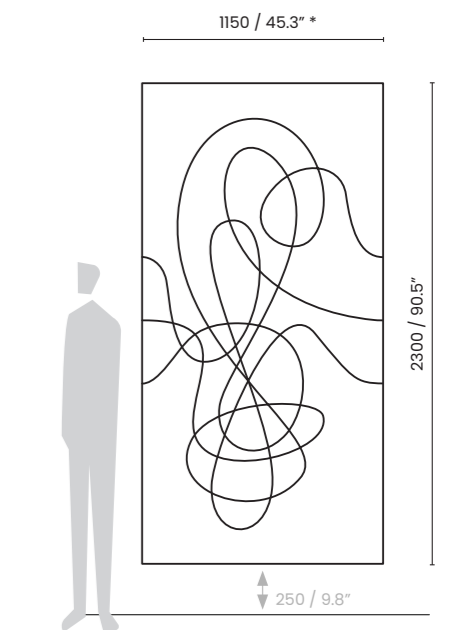

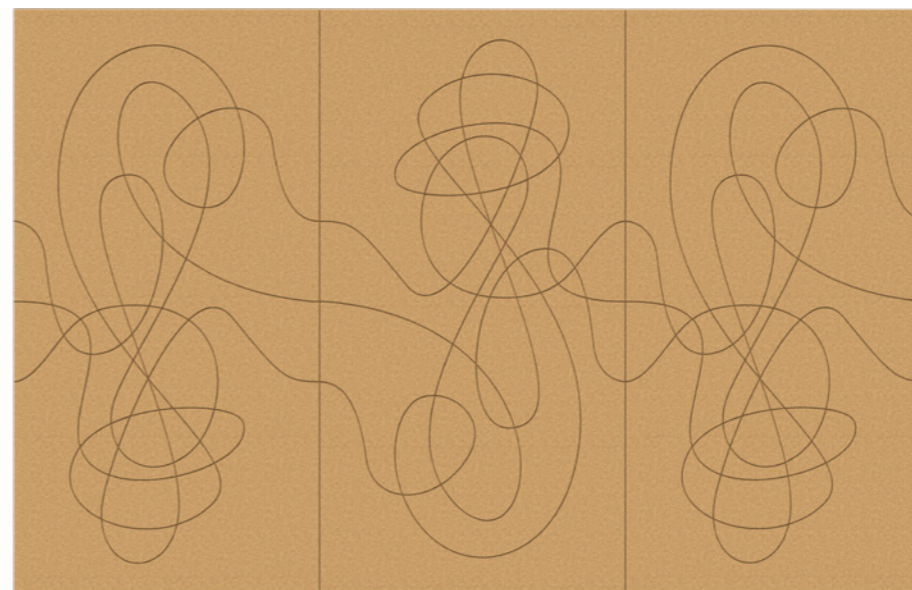

The design of the Field panel collection reimagines a field of wheat in summer, bringing a touch of nature into the interior.

VAIL

The Veil acoustic panel combines elegance, subtlety, and simplicity. Its refined design seamlessly blends with various interiors.

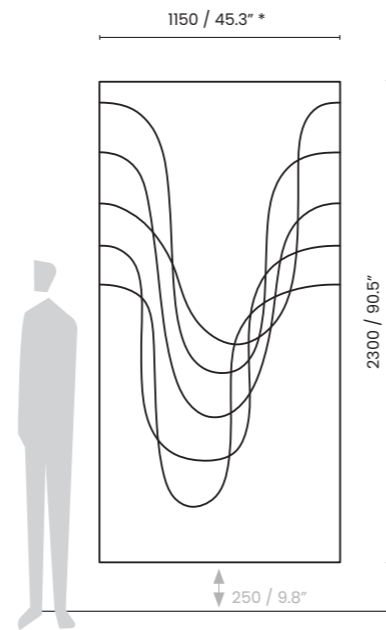

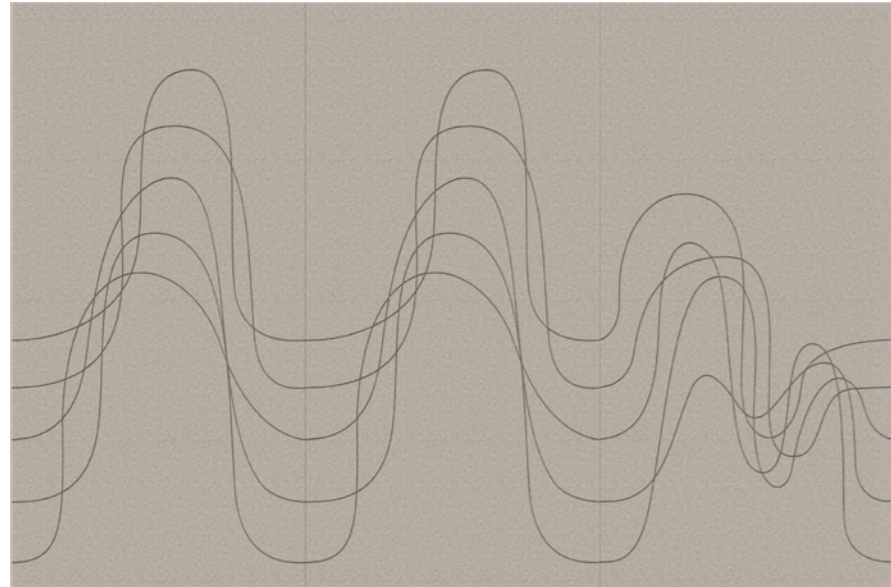

FIREFLY

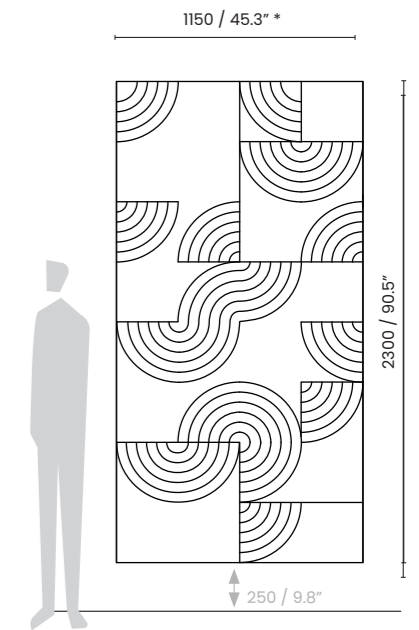

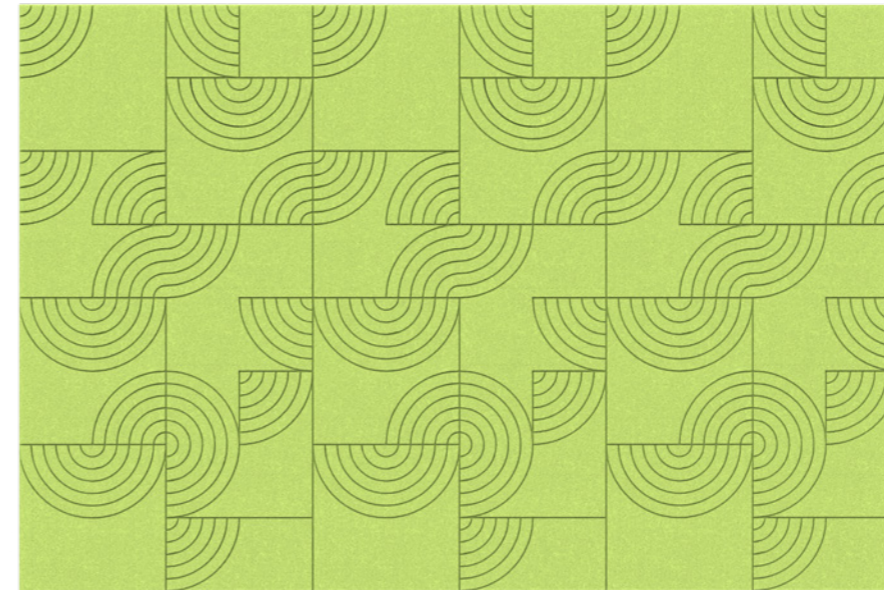

The engraved design on the Firefly panel captures the path of a firefly, creating a playful and vibrant pattern infused with energy and elegance.

BOUNCE 1

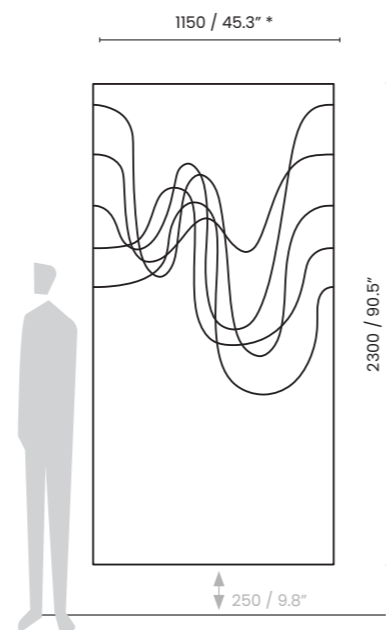

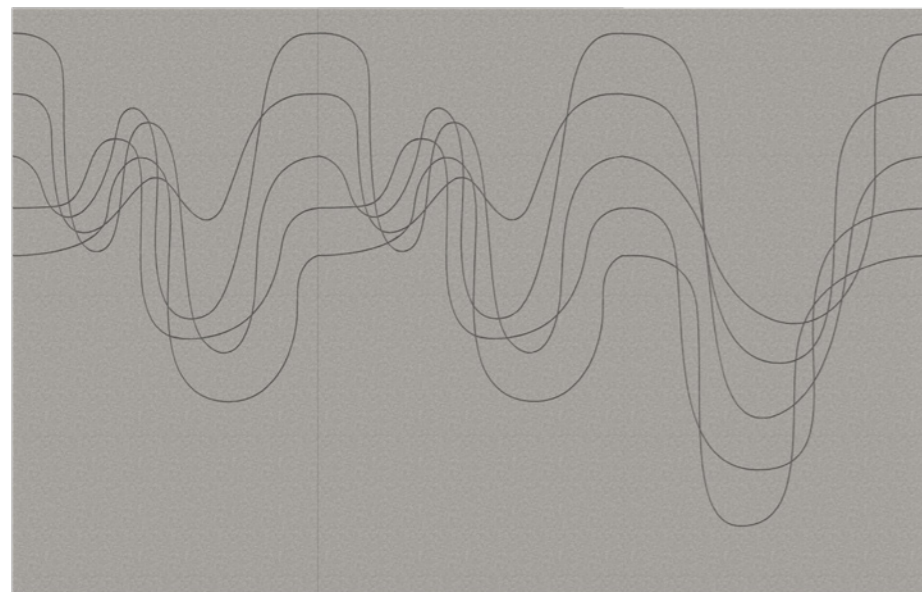

TARGET

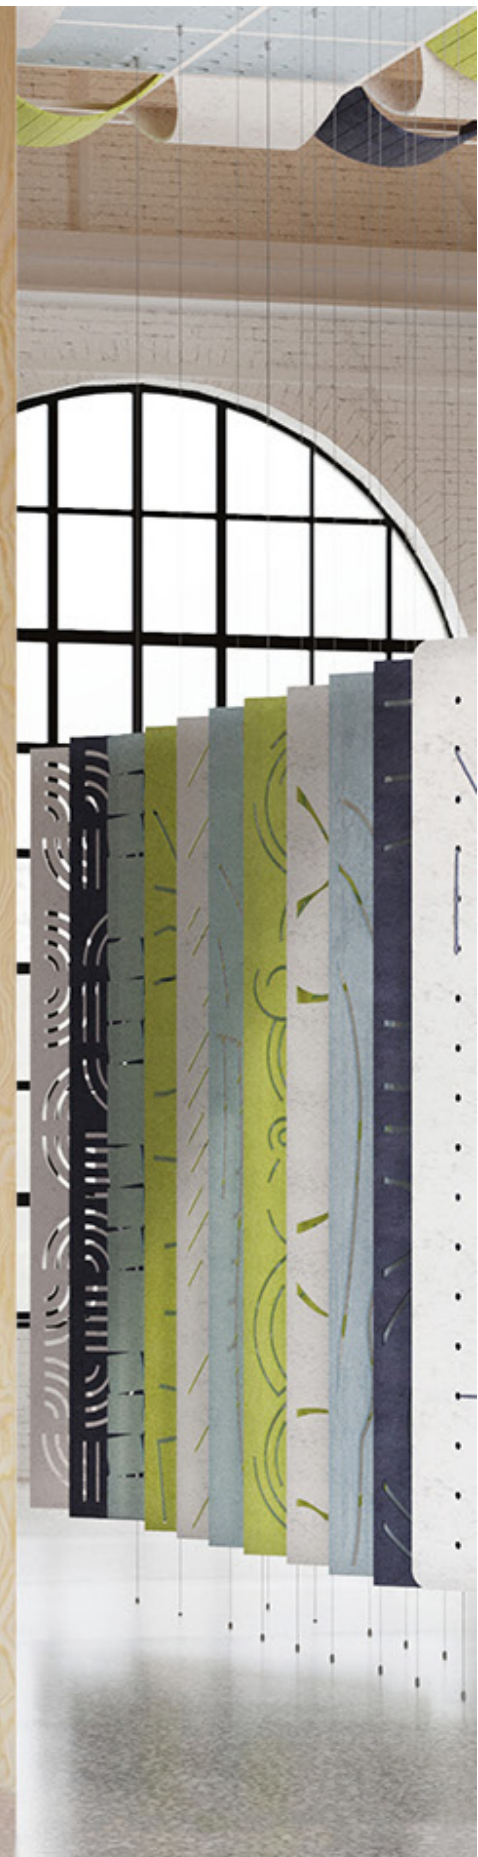

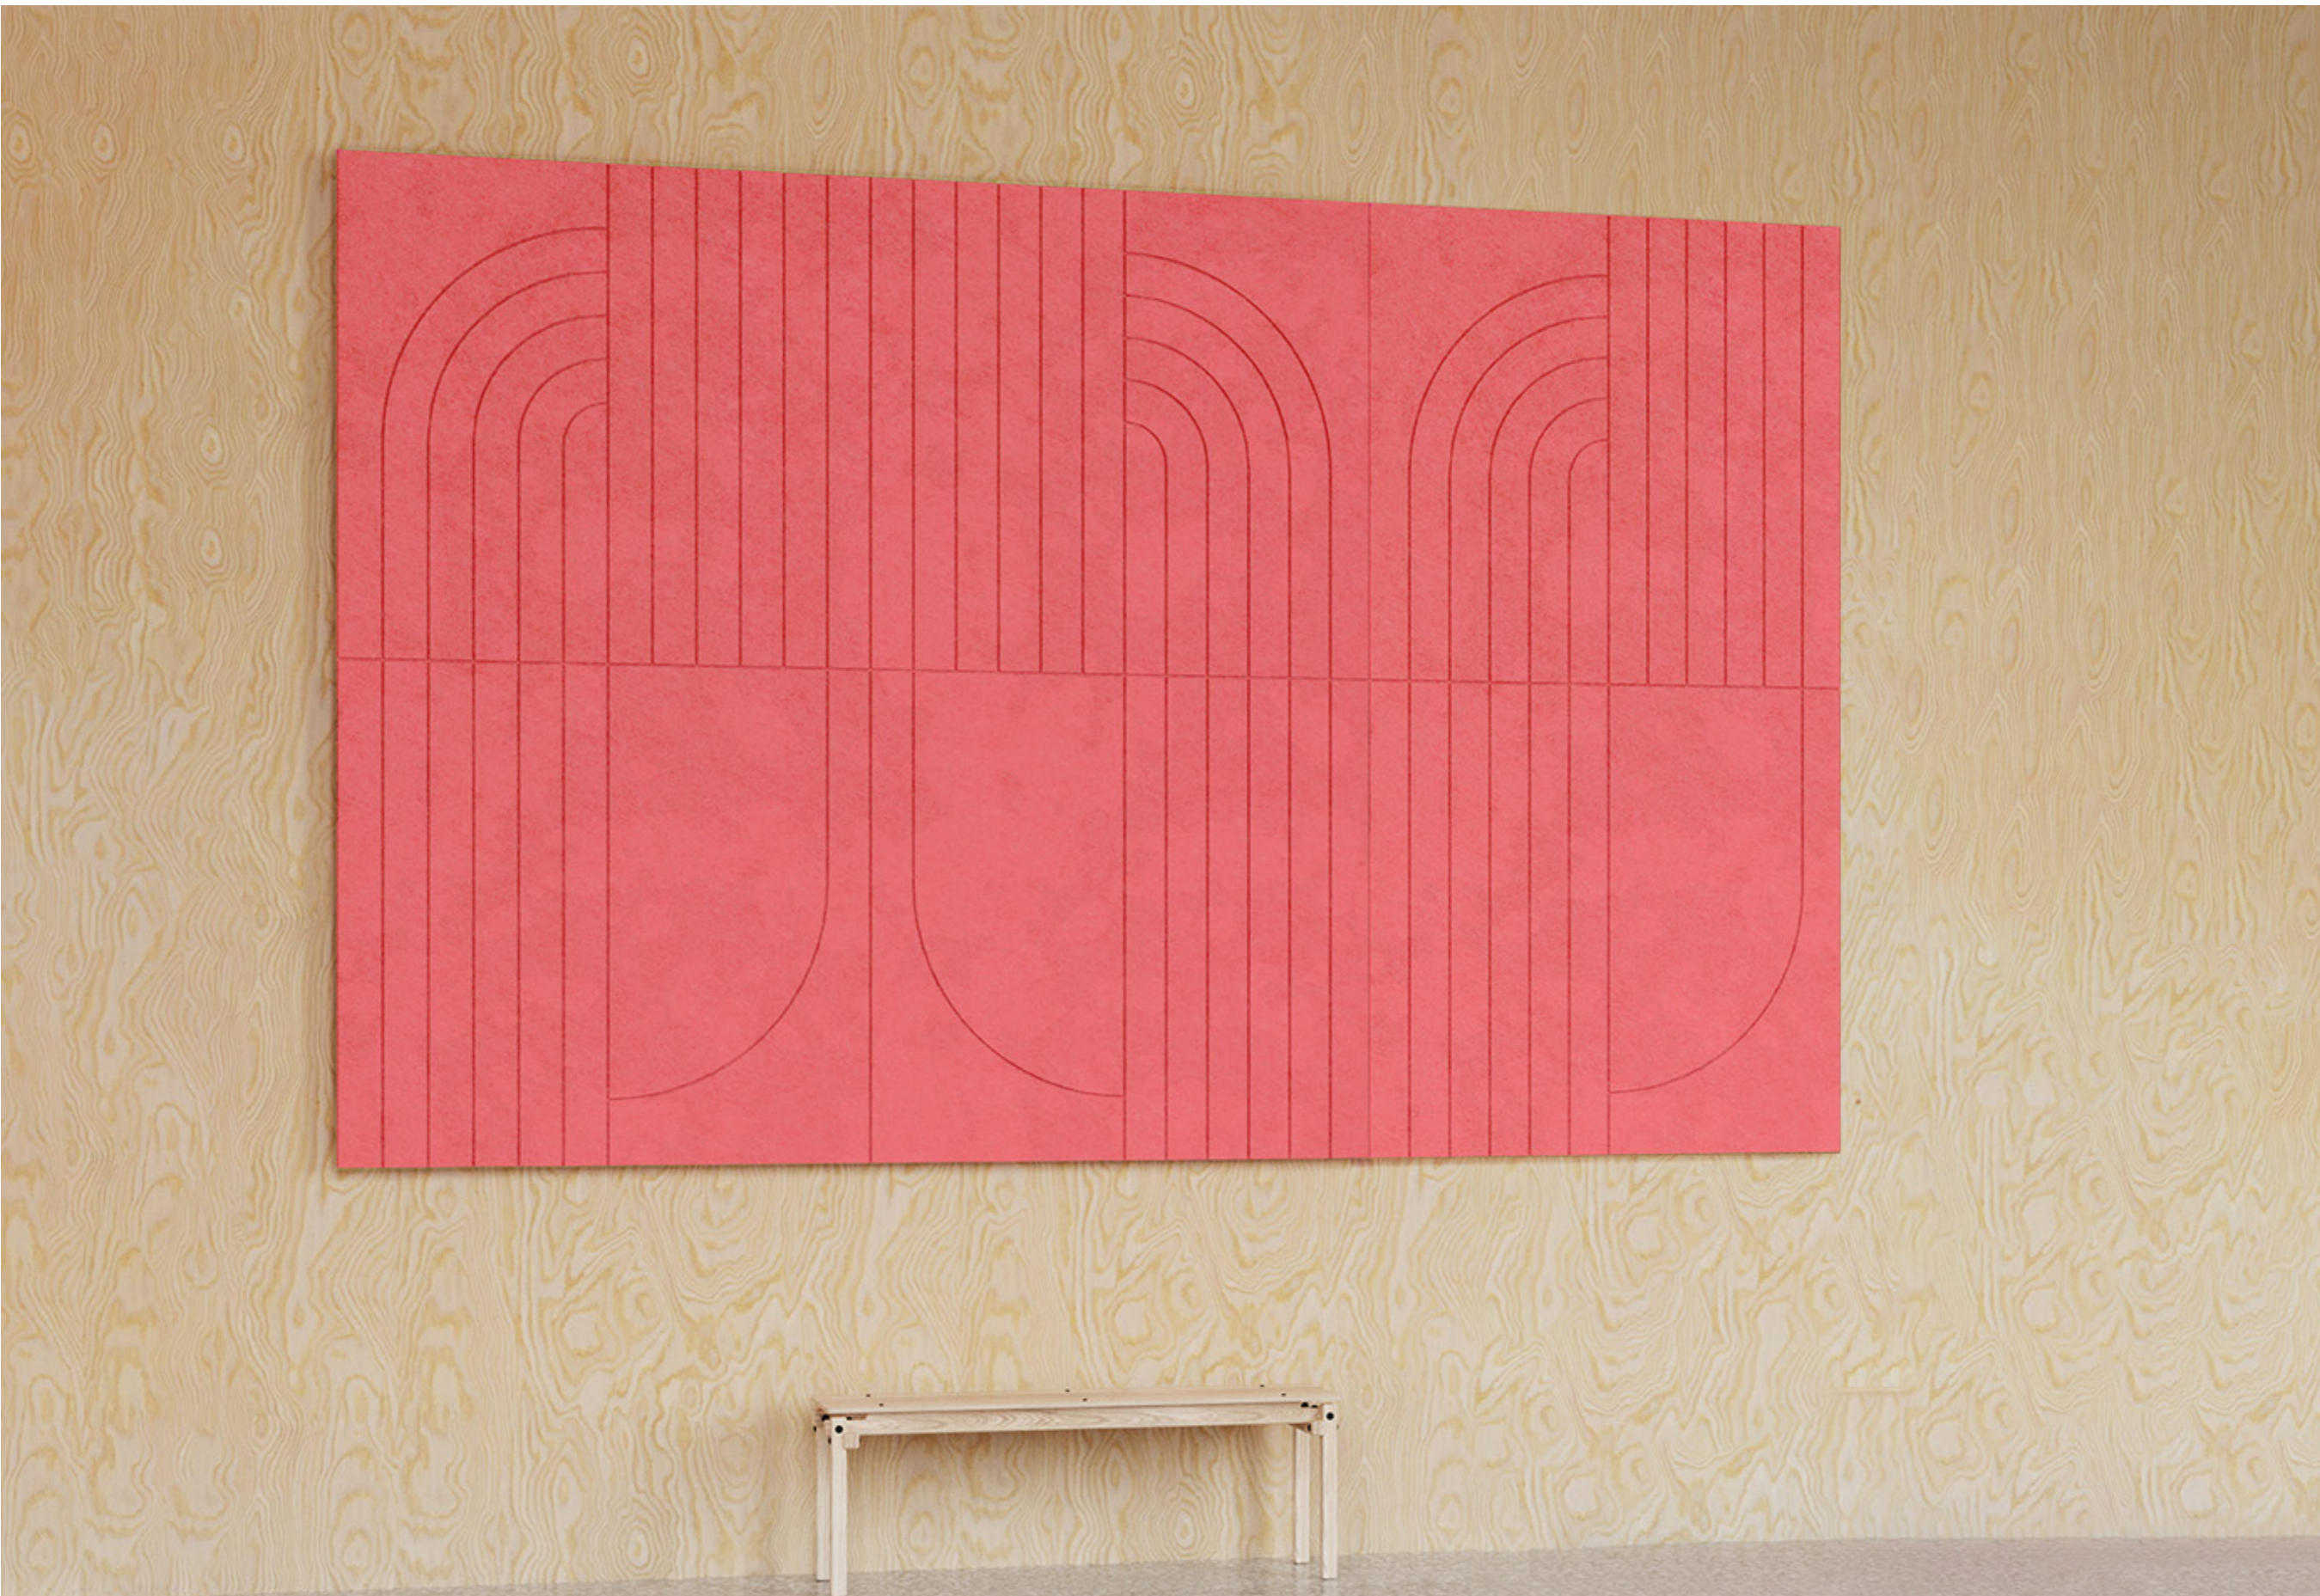

The pattern of the Target wall panel is created through a geometric play of arcs and lines. The panel is characterized by its energetic and playful nature.

BOUNCE 2

The Bounce acoustic wall panel collection provides rhythm through the path of its engraved curves, adding a dynamic visual element to any space.

COLOR SWATCHES

We provide a broad range of color choices for PET-Felt, allowing these products to easily complement a wide variety of interior spaces.

With a vast selection of hues available, you can easily match or contrast with existing decor, making it simple to achieve the perfect look and feel for any environment.

PET-FELT

Weight	Material	Thickness	Applications
2400 g/mp	PET-Felt	12 mm	Indoor areas only

Color

Slight color deviations may occur since the PET Felt panels are made from recycled fibers. It is recommended to use the same batch per project. When placing an order take a margin into account for unforeseen changes or additions to a design plan.

SUSTAINABILITY & EFFICIENCY

**We remain humble
in front of nature.**

Our acoustic panels are carefully crafted from PET-Felt, a sustainable material composed of 50% recycled content and fully recyclable. This choice reflects a commitment to environmental responsibility, supporting a circular economy by reducing waste and conserving resources.

Acoustic panels are designed to enhance absorption, attenuation and diffusion within an interior space. By optimizing how sound waves interact with the surfaces, they improve acoustic quality and create a more pleasant auditory environment. This ensures that sound is distributed evenly and effectively throughout the room, reducing echo and enhancing clarity.
